

## Letter of Recommendation For:

Hossien Sahebjame

2021

### **To whom it may concern,**

I am writing this letter in regards to Hossien and how wonderful he is as a tutor for my son, Jonathan who's struggling in AP Calculus as a high school senior this year. Hossien was recommended to Jonathan by his teacher. Jonathan connected to Hossien instantly with their first meeting and after a few lessons, he achieved 5/5 score on his AP Calc opener/quiz. As, a parent I was ecstatic and continued hiring Hossien as his tutor until now. I am very pleased and happy with Jonathan progress thus far. Hossien is an excellent teacher. He made Jonathan loves math again and helped boost his confidence . I would highly recommend Hossien to any student who's struggling in math. In addition Hossien is very professional and personable . He makes learning math fun and easy to understand according to my son. I hope this email will provide positive feedbacks and feel free to reach me for any further questions.

Kind regards,  
Molly (Jonathan's mom)
