Re: Hossien Sahebjame

To whom it may concern:

Hossien approached me one afternoon at a Costco gas station and gave me his card. I kept his number just in case. I have two boys that are 12 and 15. At the time, they were 10 and 13. I had no need for his services when we met, but little did I know, I would soon.

A few months later my youngest son, Jaxon, was falling behind. Hossien was able to speak to jaxon in a way that he could understand and begin to feel confident. Jaxon brought his grade up and passed with flying colors that year. Hossien also taught Jaxon tips on studying and working ahead of the class.

Fast forward to this school year. My older son, Tre, started falling behind in geometry. Hossien to the rescue! After the first meeting, Tre completed homework for the next couple days, and had a smile on his face from knowing he understood how to tackle the next test.

I am constantly impressed by Hossien. He has the ability to teach math and study skills to any age. I would say a 15 year old is the hardest to get through to. Hossien has a passion for his craft that I have never seen. I hope to have Hossien as a resource for years to come.
